

Your Feeling About...

Please write down the first thing that "pops" into your mind about each topic on the line provided. Then go around the room and find other students who wrote the same or similar feelings.

The diagram is a large circle divided into six equal sectors by three lines that intersect at the center. Each sector contains a topic and a horizontal line with the word "Names:" written below it. The topics, starting from the top and moving clockwise, are: "Natural Childbirth", "The Baby", "Pain", "Hospitals", "Medication", and "Doctor or Midwife".
